EDUCATION

Chhattisgarh Swami Vivekanand Technical University   **Sep. 2017 – Sep 2021**
B.Tech Computer Science and Engineering - CGPA: 8.2   *Bhilai, Chhattisgarh*

Pt. Jawahar Lal Nehru HSS Saja   **July. 2016 – July 2017**
Class XII, Percentage Scored - 78%   *Saja, Chhattisgarh*

TECHNICAL SKILLS

- **Programming Languages**:Proficiency in languages such as Java, C++, JavaScript and understanding their syntax.
- **Web Development**: Knowledge of HTML, CSS, JavaScript,library and frameworks like React,Nextjs or Tailwind, and proficiency in building MERN stack web applications.
- **Database Management**: Understanding of SQL and NoSQL databases like MySQL, MongoDB, and knowledge of data modeling.
- **API Integration**: Experience in integrating with external APIs (Application Programming Interfaces) to access third-party services or exchange data between systems.
- **Networking**: Familiarity with network protocols (TCP/IP, HTTP), understanding of RESTful APIs, and knowledge of network troubleshooting.
- **Version Control Systems**: Knowledge of tools like Git and understanding branching, merging, and code versioning
- **Software Testing**: Experience with API Testing and Test Scripts allows you to send HTTP requests (GET, POST, PUT, DELETE, etc.) with Postman tool
- **Cloud Computing**: Working with cloud platforms and knowledge of deploying applications in the cloud.

TRAINING & INTERNSHIP

The CodeHelp   **Jan 2023 – July 2023**
Software Developer trainee   *Raipur, Chhattisgarh*

- Creating user interfaces using React.js, including designing and implementing user interactions, integrating with external APIs.
- Building and maintaining the server-side components of the application using Node.js and Express.js This includes RESTful APIs
- Working with MongoDB databases to design and manage data models, create queries, and ensure data integrity and security.
- Writing unit tests and conducting integration testing to ensure the quality and functionality of the application.
- Keeping track of version control using tools like Git and documenting application features, APIs, and configurations.

Web-tech Solution Pvt. Ltd.   **Aug 2021 – Aug 2022**
Software Developer Intern   *Durg, Chhattisgarh*

- Building user interfaces and front-end components of web applications using HTML, CSS, and JavaScript.
- Collaborated with team members using version control systems such as Git to organize modifications and assign tasks.
- Worked with REST APIs to retrieve and display data from databases and developed dynamic and responsive websites
- Integrating front-end UI with the constructed API Design and implementation of continuous integration and deployment.

PROJECTS

Ed-Tech | *React.js, Tailwind, Cloudinary, Express, RazorPay, Nodemailer MongoDB, Postman*   ⭕ 🔗

- ed-Teach site is a full stack e-learning site, providing an interactive and flexible learning experience.designed as a multi-vendor platform, where multiple instructors or content creators can offer their courses and educational materials.
- Student can access to a vast repository of courses spanning various disciplines, catering to learners of all levels and interests.
- Instructors can upload their course content on the platform, ensuring that it is accessible to enrolled students at any time.
- Admin have a comprehensive administrative dashboard for efficient management of courses, instructors, and students.

Blood Bank mgmt System | *Node js,Redux, Express, MongoDB, Tailwind, Render, Vercel*   ⭕ 🔗

- The Blood Bank Management System is a comprehensive software solution designed to optimize the operations of a blood bank or blood donation center. It provides a centralized platform to manage and track blood inventory, donor information.
- The system allows the registration and maintenance of donor, hospital records, including all details, blood type.
- It facilitates real-time monitoring of blood inventory levels,ensuring and supply of different blood types to meet the demand.

E-Commerce-Website | *React js, Bootstrap, CSS, MongoDB, Express js, PayPal*   ⭕ 🔗

- Designing this responsive E-Commerce website using Bootstrap like home page, product page, sidebar, and navbar.
- User and SEO friendly front-end Implementing using React like handling shopping cart,form and beautiful Tables.
- Connecting to payment gateways like PayPal and make online payments Publishing website on the cloud servers.
- Building Back-end Web API using node js and MongoDB to handle authentication, providing report data, handling products and orders.
